# ODORCIDE<sup>®</sup>

## 210 CONCENTRATE

# LAUNDRY

**Not a mask. Not an enzyme.**

## Background

Odors in laundry can come from a variety of sources and be extremely difficult to remove. Soured and foul smelling clothing resulting from sports, smoke, work, pets and other musty sources can be safely eliminated using Odorcide Laundry. Sold as a concentrate, the product can be added to the presoak or auto-soak cycle, or directly with the detergent.

## Uses

- As a pre-treatment in a presoak for heavily contaminated items.
- For ongoing and optimal performance every time you machine wash clothing or other items.

## Directions for Use

### *Pre-treatment*

Pre-treat heavily contaminated items by simply adding ½ oz to water and soak prior to washing. When washing pre-treated items, simply follow the directions above. Product is a laundry additive, not a detergent. Product is safe for use with detergents, fabric softeners, disinfectants and other laundry additives.

### *Standard wash cycle*

For optimal performance, add Odorcide Laundry every time you wash at the following rates.

- Light odor loads: Add ¼ oz
- Moderate odor loads: Add ½ oz
- Extreme odor loads: Add 1 oz

The product can be added directly with the detergent or during the auto-soak cycle. Odorcide Laundry is an additive, not a detergent, and is safe for use with detergents, fabric softeners and other laundry additives. Follow the specific instructions per the "Directions for Use" section on the label.

## Product Safety

All Thornell products are safe for use on any surface. As with any product, follow the label directions. Contains water, proprietary essential oil blend and preservatives.

Keep out of the reach of children. For external use only.

## Cautions

Effectiveness decreased when using with Chlorine solutions. Always spot test for color fastness.
