CAT ODOR-OFF®

CAT ODOR ELIMINATOR

Available in two formulas:

Original

Fresh Scent

Background

Unpleasant animal-related odors are a common, daily occurrence, and managing them safely and effectively is an important part of keeping your work environment pleasant, your clients satisfied and pets happy. Thornell specializes in creating products that permanently eliminate malodors - complex blends that work through counteraction, absorption, molecular bonding, inhibitors and residual actions. They are NOT masks. They are NOT enzymes. Each of Thornell's products is specially formulated for a unique purpose.

Uses

Eliminates animal odors in carpets, upholstery and other porous surfaces from urine, tomcat spray, feces, emesis and more. Works where other products haven't and won't. Contains no enzymes so may be used without loss of efficacy with or after detergents (carpet shampoo) and germicides. Soaker top penetrates to the source of the odor where sprays and powders only treat surface problems. Removes many stains.

Directions for Use

CONCENTRATE

Remove cap from the small, graduated part of the bottle. Squeeze large part of bottle, with cap on, forcing Cat Odor-Off into the measurement chamber.

- Dilute ½ oz of Cat Odor-Off Concentrate to 16oz of water in a spray or pour-on applicator.

Spray or pour on the source of the odor. If on carpet saturate to reach the odor source. Work in thoroughly if possible. Allow to dry. If odor persists after Cat Odor-Off has dried, the source of the odor has not been reached. Continue to reapply as necessary.

May be applied directly to the animal, on cages, fabrics, carpets and any place a problem odor exists. Very effective when applied to the surface of litter boxes.

SOAKER

Pull up on the applicator cap, point the bottle at the problem area and squeeze. If on carpet saturate to reach the odor source. Work in thoroughly if possible. Allow to dry. If odor persists after Cat Odor-Off has dried, the source of the odor has not been reached. Continue to reapply as necessary.

May be applied directly to the animal, on cages, fabrics, carpets and any place a problem odor exists. Very effective when applied to the surface of litter boxes.

SPRAY

For quick, permanent results spray directly on the source of the odor. Use enough product to completely cover and saturate the odor area. For hard surfaces spray directly on the source of the odor and wipe or let air dry. For fabric or carpet, use Cat Odor-Off Soaker.

The product must come in contact with the source of the odor to be effective. If odor persists after Cat Odor-Off has dried, the source of the odor has not been reached. Continue to reapply as necessary.

May be applied directly on cages, fabric, carpet, floors, walls or any place an odor problem exists.

Product Safety

All Thornell products are safe for use on any surface or directly on the animal. As with any pet care product, consult with your veterinarian and review and follow the label directions. Contains water, proprietary essential oil blend and preservatives. Keep out of the reach of children. For external use only.

Cautions

Spot test for color fastness before applying to any fabric. Do not spray directly into animals eyes.
