

HOW TO KEEP YOUR FACILITY SMELLING FRESH WITH K.O.E.®

Eliminate tough pet odors in your facility's animal zones! K.O.E. and K.O.E. Fresh Scent neutralize feces, urine, and emesis in kennels and wards. Keep the facility fresh and patients happy!

Measure

Remove the cap from the small, graduated section of the bottle. Squeeze the larger section (cap on) to fill the measuring chamber with K.O.E.

General Cleaning

Add 1/4 oz of K.O.E. to 1 gallon of cleaning solution or rinse water.

Spray Application

Use the same 1/4 oz per gallon dilution in a plastic pump sprayer.

High Pressure Wash

Add 1/2 oz of K.O.E. to 6 gallons of water in your detergent tank.

Adjust As Needed

Dilution ratios can be adjusted to match specific needs or pressure washing equipment.

Cleaning Tips

- Add K.O.E. to your mopping solution (follow dilution instructions on the bottle) to thoroughly clean floors and neutralize odors.
- Use a K.O.E. diluted spray to wipe down all surfaces, including exam tables, countertops, and waiting area furniture.
- After cleaning, lightly mist the air with a diluted K.O.E. solution to eliminate any remaining airborne odors. You can also spray K.O.E. onto air filters to help neutralize odors as air circulates.
